

WATER AND SANITATION TARIFF POLICY

**2020/21 Medium Term Revenue and Expenditure
Framework (MTREF) Policy Review**

**FINAL WATER AND SANITATION
TARIFF POLICY**

MARCH 2020

WATER AND SANITATION TARIFF POLICY

1. DEFINITIONS

In this policy, unless the context otherwise indicates: -

"Agreement" means the contractual relationship between the Municipality or an authorised agent and a consumer;

"Authorised agent" means -

- Any person authorised by the Municipality to perform any act, function or duty in terms of, or exercise any power under this policy or
- Any person to whom the Municipality has delegated the performance of certain rights, duties and obligations in respect of providing revenue services; and /or
- Any person appointed by the Municipality in terms of a written contract as a service provider to provide revenue services to customers on its behalf, to the extent authorised in such contract;

"Domestic purposes", in relation to the supply of water, means water supplied for drinking, ablution and culinary purposes to premises used predominantly for residential purposes;

"Dwelling unit" means an interconnected suite of rooms, including a kitchen or scullery, designed for occupation by a single family, irrespective of whether the dwelling unit is a single building or forms part of a building containing two or more dwelling units;

"Flat" means a suite of rooms forming a complete unit exclusively used as a residence and contained in a building consisting of two such dwelling-units or more, excluding a hotel, boarding and lodging undertaking and place of instruction.

"Home for the aged, retirement centre or home for the disabled" means dwelling-units occupied exclusively by the aged or disabled, excluding a hotel, boarding and lodging undertaking and place of instruction.

"Household" means a traditional family unit consisting of persons related in some way;

"Industrial purposes", in relation to the supply of water, means water supplied to any premises, which constitutes a factory, as defined in the General Administrative Regulations made under the Occupational Health and Safety Act, 1993 (Act 85 of 1993);

"Low cost housing" the erection of these residential dwellings has been financed exclusively by means of the subsidy package in terms of the National Housing Subsidy Scheme;

"Occupier" includes any person in actual occupation of the land or premises without regard to the title under which he occupies it and, in the case of premises sub-divided and let to lodgers or various tenants, shall include the person receiving the rent payable by the lodgers or tenants whether for his own account or as an agent for any person entitled thereto or interested therein;

"Parks" means a public area where no access is charged and no business is run from.

WATER AND SANITATION TARIFF POLICY

(b) The owner or tenant of any premises to which the Municipality is providing water services;

(c) Where water services are provided through a single connection to a number of accommodation units or consumers or occupiers, means the person to whom the Municipality agreed to provide such water services; and

(d) Any end-user who receives water services from the Municipality or other water services institution.

"Container" means all types of containers owned by the Municipality including, plastic bags and bulk containers;

"Determined" means determined by the Municipality from time to time;

"Emergency situation" means any situation that if allowed to continue poses a risk or potential risk to the financial viability or sustainability of the Municipality or a specific municipal service;

"Meter" means a water meter as defined in the regulations made under the Trade Metrology Act, 1973 (Act 77 of 1973), or, in the case of a water meter of a size greater than 100 mm, a device which measures the quantity of water passing through it;

"Sewage" means waste water, industrial and commercial effluent, standard domestic effluent and other liquid waste, either separately or in combination, but does not include storm water;

"Sewage disposal system" means a structure, pipe, valve, pump, meter or other appurtenance used in the conveyance of sewage through the sewer reticulation system and the treatment thereof at a sewage treatment plant under the control of the Municipality and which may be used by it in connection with the disposal of sewage;

"Sewer" means any pipe or conduit which is the property of or is vested in the Municipality and which may be used or is intended for the conveyance of sewage from the connecting sewer but does not include a drain as defined; and "municipal sewer" has a corresponding inclusive meaning;

"Municipality" means –

- the Sekhukhune District Municipality or;
- the Municipal Manager of the Sekhukhune District Municipality in respect of the performance of any action or exercise of any right, duty, obligation or function in terms of this policy;
- an authorised agent of the Sekhukhune District Municipality;

"Municipal Council" means the Municipal Council as referred to in section 157(1) of the Constitution, 1996 (Act No. 108 of 1996);

"Municipal Manager" means the person appointed by the Municipal Council as the Municipal Manager of the Municipality in terms of section 82 of the Local Government Municipal Structures Act, 1998 (Act No.117 of 1998) and includes any person –

- acting in such position; and
- to whom the Municipal Manager has delegated a power, function or duty in respect of such a delegated power, function or duty;

2. INTRODUCTION AND OBJECTIVE

In order to give effect to the provisions of the Constitution, the Municipality must give priority to the basic needs of the local community, to promote the development of the local community and to ensure that all members of the local community have access to at least the minimum level of basic municipal services.

The services provided by the Municipality must be:

- Equitable and accessible;
- Provided in a manner conducive to the prudent, economic, efficient and effective use of available resources and the improvement of standards of quality over time;
- Financially sustainable;
- Environmentally sustainable; and
- Regularly reviewed with a view to the upgrading, extension and improvement of services

Various statutes enable authorities rendering certain services to impose tariffs. To ensure that the cost of services rendered is recovered as far as possible, tariffs have to be revised on an annual basis.

This policy has been compiled to address tariffs for services and comply with the requirements and guidelines as set by following acts and other documents:

- SALGA – Local Government Financial Best Practise Manual
- The Constitution of the Republic of South Africa, 1996, Act 108 of 1996
- The Municipal Systems Act, Act 32 of 2000
- The Municipality's Indigent Policy
- Fire Brigade Service Act, Act 94 of 1987
- Local Government Transaction Act, 1993, S10G (7)
- Municipal Finance Management Act, Act No. 56 of 2003
- National Environmental Management Act, Act No. 197 of 1998
- Property Rates Act, Act No. 6 of 2004

WATER AND SANITATION TARIFF POLICY

- 4.2.6 Tariffs that cover only operating and maintenance costs
- 4.2.7 Special tariffs or life line tariffs for low levels of use or consumption of services or for basic levels of service, or;
- 4.2.8 Any other direct or indirect method of subsidisation of tariffs for poor households;
- 4.2.9 Tariffs should reflect the cost reasonably associated with rendering the service, including capital, operating, maintenance, administration and replacement costs and interest charges;
- 4.2.10 Tariffs should be set at levels that facilitate the financial sustainability of the service, taking into account subsidisation from sources other than the service concerned;
- 4.2.11 Provision may be made in appropriate circumstances for a surcharge on the tariff for a service;
- 4.2.12 Provision may be made for the promotion of local economic development through special tariffs for categories of commercial and industrial users;
- 4.2.13 The economical, efficient and effective use of resources, the recycling of waste and other appropriate environmental objectives should be encouraged;
- 4.2.14 The Municipality should, as far as possible, ensure that the tariffs raised in respect of the services offered further generate an operating surplus each financial year of at least 5% as the Council of the Municipality may determine at the time that the annual operating budget is approved. Such surpluses should be applied in relief of property rates and for the partial financing of general services or for the future capital expansion of the service concerned, or both. The modesty of such surplus shall prevent the service tariffs concerned from being viewed as concealed taxes;
- 4.2.15 The Municipality should develop, approve and at least annually review an indigence support programme for the municipal area. This programme should set out clearly the Municipality's cost recovery policy in respect of the tariffs which it levies on registered indigents and the implications of such policy for the tariffs which it imposes on other users and consumers in the Municipal region;
- 4.2.16 The Municipality may differentiate between different categories of users and consumers with regard to the tariffs, which it levies. Such differentiation shall, however, at all times be reasonable and be fully disclosed in each annual budget;
- 4.2.17 The Municipality's tariff policy should be transparent and the extent to which there is cross-subsidisation between categories of consumers or users shall be evident to all consumers or users of the service;
- 4.2.18 The Municipality undertakes to ensure that its tariffs shall be easily explainable and understood by all consumers and users affected by the tariff policy concerned;
- 4.2.19 The Municipality undertakes to render its services cost effectively in order to ensure the best possible cost of service delivery;
- 4.2.20 In adopting a two-part tariff structure, namely a fixed availability charge coupled with a charge based on consumption, the Municipality believes that it is properly attending to the

WATER AND SANITATION TARIFF POLICY

- (iii) Commercial Buildings
- (iv) Industrial buildings
- (v) Public institutions (Schools, clinic, hospitals, government departments)
- (vi) Churches
- (vii) Sports fields and clubs
- (viii) Mines
- (ix) Farms
- (x) Residential RDP
- (xi) Communal stand pipes

4.4 TARIFF FRAMEWORK AND STRUCTURES

In order to determine the tariffs, which should be charged for the rendering of services, the Municipality shall identify all the costs of operation of the undertakings concerned, including specifically the following:

- Cost of bulk purchases in the case of water
- Distribution costs
- Distribution losses in the case of water
- Depreciation expenses
- Maintenance of infrastructure and other fixed assets
- Administration and service costs, including:
 - Service charges levied by other departments, such as finance, human resources and legal services
 - Reasonable general overheads, such as the costs associated with the office of the Municipal Manager
 - Adequate contributions to the provisions of bad debts and obsolescence of stock
 - All other ordinary operating expenses associated with the service concerned (note: the costs of the democratic process in the Municipality, shall form part of the expenses to be financed from property rates and general revenues and shall not be included in the costing of the major services of the Municipality)
 - The intended surplus to be generated for the financial year, such surplus to be applied:
 - As an appropriation to capital reserves; and/or
 - Generally in relief of rates and general services

WATER AND SANITATION TARIFF POLICY

- **Fixed tariff**

To recover all fixed costs. This includes permanent water infrastructure and its maintenance.

- **Variable tariff:**

To recover all costs and all other expenses not recovered by the fixed tariff. It will be based on the consumption of the users.

- **Bulk water supply to other local Governments**

A quantity charge for water supplied since the previous meter reading according to the applicable Lepelle Water Board tariff including the Water Research Fund levy, plus 10% administrative charge or as per agreement.

- **Pre-paid water meters**

Tariffs for pre-paid meters shall be the same as the ordinary consumption tariffs levied on the category of consumer concerned, but no availability charge shall be levied on properties where pre-paid meters have been installed. The distinction is made in recognition to the financial advantages which pre-paid entails for the service in question.

- **Tariff for unauthorised water consumption**

Amount payable for water consumption obtained through illegal water consumption. A once-off levy is payable, after which the connection will be formalised. The levy will be based on the diameter of the connection.

Spot fines may be imposed in terms of the Water-supply By-laws, for unauthorised connections or damage to the water-supply system.

- **Charges for connecting the water supply**

Fees are payable for supplying and laying connecting pipes and for the installation of water meters, not more than 10 m from the nearest connection point. These fees are based on the size of the meters.

- **Discontinuation or restriction of the water service owing to the failure to pay**

The Municipality reserves the right to discontinue or restrict the supply of water services where consumers or users fail to pay their monthly charges.

- **Movable water meters**

Construction Connections

WATER AND SANITATION TARIFF POLICY

All sundry tariffs, when deemed appropriate by Council, will be subsidised by property rates and general revenues, particularly when the tariffs will prove uneconomical when charged to cover the cost of the service concerned, or when the cost cannot accurately be determined, or when the tariff is designed purely to regulate rather than finance the use of the particular service or amenity.

All sundry tariffs over which the Municipality has full control and which are not directly related to the cost of a particular service, shall be adjusted annually to be at least in line with the prevailing consumer price index, unless there are compelling reasons why such adjustment should not be affected.

Fees will be charged for the following sundry services supplied by the Municipality to consumers:

- Unpaid debit orders (per account)
- Supply of information (faxes) per page
- Supply of information (statements)
 - Monthly account
 - Furnishing of valuation certificates
- Final meter reading levy
- Photostat copies and fees
- Penalty and other charges imposed in terms of the approved policy on credit control and debt collection
- Penalty charges for the submission of dishonoured, post-dated or otherwise unacceptable cheques

Refer to Annexure A, section I for the approved tariff structure

4. By-Laws

The Municipal Council should adopt by-laws, according to Section 75 of the Municipal Systems Act No. 32 of 2000, to give effect to its Tariff Policy, its implementation and enforcement. By-laws may differentiate between different categories of users, debtors, service providers, services, service standards and geographical areas, as long as the differentiation does not amount to unfair discrimination.

SUNDRY TARRIFFS 2020/2021

Item no	Description	2019/2020	2020/2021	2021/2022	2022/2023
